

Did You Know?

We provide standard and custom Rack Mount LCD Keyboards

Expertise to
"Bring it All
Together"

In addition to providing the industry's leading family of industrial computing platforms, Chassis Plans can also integrate virtually any display for your application.

Whether you need space-saving flip-up LCD solutions or ruggedized NEMA panel-mount displays, with or without integrated keyboards and input devices, military or industrial standards, we've got you covered.

Chassis Plans' line of high quality, compact TFT flat panel LCD displays are ideal solutions for rugged computing environments. Our panel mount displays can be easily integrated into new or existing systems.

We've already done the research, engineering and product testing to assure that every Chassis Plans display offering meets the most stringent standards, including compliance with UL, CSA, FCC and NEMA requirements.

No matter where your unique application challenges may lead, Chassis Plans is committed to being a full partner in your success.
