

# Did You Know?

**SYSTEMS**  
Systems Engineered to Perform®

## We provide **Turnkey Rugged Portable Computer Systems**

Expertise to  
"Bring it All  
Together"

*In addition to providing the industry's best industrial computing components, Chassis Plans can provide fully turn-key integrated systems.*

At Chassis Plans, we are justifiably proud of the world class rugged portable computer systems we are providing to the military and many prime contractors. We offer high quality multi-vendor integration services to provide fully configured turnkey portable systems. Our specialty is providing completely integrated systems tailored exactly to customer application and environmental requirements. It requires high-level skills and discipline to professionally integrate components into reliable, well built portable systems. Chassis Plans has mastered those skills through years of experience.

The process starts with ISO 2001:2008 certified quality systems to protect sensitive components and assure consistent high quality builds over multi-year program life. This includes a rigorous antistatic program, revision control, exceptionally neat wire routing and assembly documentation.

No matter where your unique application challenges may lead, Chassis Plans is committed to being a full partner in your success.

### Integrated Portable Computer Systems

#### Tailored to Meet Your Specific Requirements

- o ISO 2001:2008 certified quality systems
- o Expert component selection for compatibility
- o Rigorous antistatic program
- o Highly experienced technical staff
- o Exceptional integration documentation
- o Extended system test suite
- o Burn-in to meet customer specifications
- o Full system verification to your specification including Mil Spec, extended temperature cycling, shock & vibration, humidity, salt spray, dust
- o Custom power supply & drive cabling
- o Full traceability to serial number and component
- o End Of Life notification
